Never in the history of libraries has soft seating been more important than it is today. With technology being hand held or laptops, more people opt of the comfort of a lounge chair to scroll through their news feed over sitting at a table. Our manufacturers recognize this and many have added the option for electric to their seating collections. Tablet arms and casters are also popular components that can be added.

Upholstery is a fantastic way to add pops of color and interest to a space. With anti-microbial, stain proof and cut resistant fabrics, we know durability is very important in public spaces. Many pieces shown are available with two toned upholstery options.

When we create these brochures, we create them as a sampling of what is available on the various purchasing contracts. If you need help finding the perfect piece to fit you vision, give us a call and we are happy to dig deeper for additional options! Many of the pieces shown are available in single seat, settee and sofa sizes.

Options, options, options! We know it can be overwhelming. If you need help in determining what's best for your space, one of our designers is always happy to lend a hand!

**Teekan** – with additional leg options

**Esque**

**Fin/Fin Nu** has settees, sofas, benches and tables.

**Collective Motion** includes arm, armless, mobile, and stool options along with privacy panels.

**Indie** is the only rocking lounge chair and has low lounge, single seat, settee and sofas with or without headrests. There's also accompanying poofs, ottomans and tables.

**BeSpace** has all seating sizes as well as star base, benches and modular pieces

**Ziva** is a style that has privacy, modular, benches and tables. It's a great option for many different areas, like group study, large open space or to create a natural division between areas.

**Poet** is another great privacy option with different legs and cushions to build a look to fit your style

**Hypate**

**G1**– Round metal or a wood base lend to the good design and good value of this chair.

**Bedouin**– Looks like it could be on the set of a StarWars™ but could work very well in a Teen Area or an ultra modern space!

**Madman**– The newest line from EKO to embrace the return of Mid-Century Modern with angled wood legs and an option of a pedestal base.

**Bello** – This modular collection has the typical sizes as well as privacy panels and curves that can be used to create study spaces.

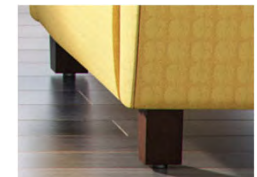

**Panel** – This line has 3 base, privacy and table options that makes this an option for booth seating.

**Machi II** – Available with wood or metal legs and wood arm caps.

**Swager ^ & Ovi >** – Two great lounge seating options for Teen Areas, gaming especially!

# Allermuir

**Conic** – A tub chair with wire or 4 legs base and a tub chair with a head rest and wire base make this chair look rather comfortable.

**Jinx**

**Lola**

**Haven** – With or without a surround Haven is a statement piece that shows off so well in two toned fabric!

**Paver**

**Pebble**

**Mozaik**

**Venus**
