Tables fall under the same category as seating when it comes to providing a brochure that covers everything out there; so again we've pulled together some of the most popular items available.

We are finding today's library is looking for more of mix of materials; i.e. wood/metal, wood/acrylic, metal legs/laminate top, as well as your traditional wood tables.

The purpose of this brochure is to touch on the most popular items available. If you don't find exactly what you're looking for, please feel free to contact us as we are confident we have the product to fulfill your needs.

Please also keep in mind that just about all the tables shown here are available in various shapes, sizes, heights and likely also available as PAC tables.

**GTX** Square metal frame with a laminate top.

**Vector** Round metal frame with a laminate top.

## Privacy Panels

If you're in love with your current tables or maybe don't have the budget to replace a reading table with a PAC table, adding privacy panels is the perfect solution for you! They are available with a clamp on mount or can be bolted on. There's also acoustical panels to keep noise down if working with a group!
